December 18, 2011

Dear Kavio! Customer,

Beginning February 2009, the U.S. Consumer Product Safety Commission (CPSC) adopted a new product safety law. All manufacturers must conduct a testing of lead content in substrates.

To meet with the new law, Kavio! conducted testing and monitoring of all of our contractors and suppliers. We tested and received the report that Kavio! merchandise met the U.S. Consumer Product Safety (CPSC); that no harmful AZO dyes or blue colorant were used in the manufacturing process.

Kavio! merchandise was tested through TUV Rheinland, one of the U.S. approved laboratory testing facilities in Asia for lead content. Numerous tests were conducted to assure and maintain the high level of safety for Kavio! merchandise and for the safety of our consumer as well.

This letter is to assure your satisfaction and Kavio! proudly guarantees that our products have met the U.S. Consumer Product Safety Commission (CPSC) requirements.

If you have any questions please feel free to contact us.

Sincerely,

Dean Vuong
VP Marketing
KAVIO!
